Each team shall have 1 HCSP person

The Hockey Canada Safety Program utilizes a proactive, preventative, common sense approach to keeping our children safe. The goal of the program is for the safety people to implement effective risk management programs with their own teams where player safety is the first priority at all times, both on and off the ice. The safety person is a volunteer who has become HCSP certified. This certification program must be successfully completed every six years in order to be a team's safety person, even if the individual is a medical professional.
